Volunteer Abdallah Thabet

WEB DEVELOPER

EXPERIENCE

WEB DEVELOPMENT

The actual experience is what I can do not just the courses you can see my projects in my website.

I am Really **Ready to prove my self** and explain every single line of code in my projects in a whiteboarding interview.

courses:

Codecademy.com: Learn **Python 3**, Learn **HTML5** and Learn **CSS**.

- codewithmosh.com: **Complete Python Mastery.**

  All of my certifications in my website.

SKILLS

Python3
HTML5
CSS
Django

Additional Skills:
Graphic Design
Touch Typing

EDUCATION

Gaza University, IT College.

PROJECTS

- **School Management System**: It is a system for managing the students and their teachers and the classes and view their information.
- **Music Website**: This application allows the users to upload their music and create albums and share it and download it in just one click.
- **My Blog**: This project is my blog that I created it with Django and I use it to view my resume and my projects.

About Me

Hello World! my first successful app it is a MAGIC to order the machine to do what you want.

I realized that I fell in LOVE with programming because it is fun and challenging and I'm so excited to work as a web developer.

Web Development has never been "just a job" for me, it is way more than that it is, my Hobby, my Love and it is the thing that pushes me to learn more.

Volunteer web developer I am looking for a special and committed software company to prove my skills and obtain a certificate of experience necessary for the job market.

What do you expect from someone who has learned to speak a new language in order to learn programming better?

Languages

English: intermediate.
Arabic: mother language.
